

Greg,

Just a quick note to please pass on to your contractors.(Tuscano-Maher Roofing Inc.) The job was completed today and they left as quietly as they came in. All in all no major issues, all the contractors and their staff were kind and courteous. Except for the expected noises we would have never known they were here!!! Please let them know that especially due to the customer services aspect of our business that we really did appreciate how cooperative they all were. Thank you for your genuine interest in the project and keeping me informed along the way. It has been a sincere pleasure
